

What is Norfolk and Waveney Talking Therapies

We are an NHS service offering a range of free support to help people make changes to improve their wellbeing and to help them cope with common mental health and emotional issues such as low mood, stress, anxiety and depression.

Our service is for people who are 16 years or over. You can contact us by phone **0300 123 1503** or via our website: **nandwtalkingtherapies.org.uk**

How can the service help me?

We work with you to help you make the necessary changes to improve your wellbeing and quality of life.

For most of us, there are times in our lives when we can feel stressed, anxious, depressed, overwhelmed, out of control, confused or simply cannot cope.

Sometimes these feelings become so overwhelming that they affect our daily lives and stop us doing the things we enjoy. They can make us feel that no-one understands us and that nothing can be done.

We offer a whole range of services to support people with their wellbeing. These include:

- Workshops and courses to help you to achieve a better sense of wellbeing, and to manage difficulties such as stress, worry and insomnia.
- Guided self-help and psychological therapies using Cognitive Behavioural Therapy.
- Help to access peer support and social groups.
- Help to find other support for issues affecting your wellbeing such as debt, housing and employment.
