Careline Digital Home Alarm

Independence when you want it, help when you need it.

Our Careline Digital Home Alarm:

- includes a push-button alarm pendant (automatic falls pendant upgrade available), wearable on the wrist or around the neck
- needs no phone line or internet - uses roaming sim technology
- has a 40-70 hour battery backup in case of a power cut
- pendant has a range of up to 300 metres around the home & garden
- can connect to many other “assistive technology” devices in the home e.g. suitable smoke alarm, door sensor, bed sensor.

or, for more active users...

Careline GO Mobile Alarm

Supporting you to remain independent, anytime, anywhere.

Our Careline GO Mobile Alarm:

- is small, discreet and stylish
- includes falls detection
- uses GPS for location tracking
